Our club is a valuable resource and every full time member contributes to its upkeep by performing 16 hours of volunteer work per year. This includes everything from court maintenance and gardening to time on committees. Those unable to volunteer are billed (currently \$12 per hour) once a year for non-performed work. Short term membership packages do not have this requirement as fees are adjusted to compensate. Full members are also exempt in their first year.

Emergencies

- A telephone is located in the office. **In the case of any emergency, first call 911.** A first aid kit and an A.E.D. (defibrillator) are located near the entrance to the courts. CPR training and training in the use of an AED are very valuable, and may be obtained through first aid courses.
- Many websites include basic instructions in the use of an AED. However even if you do not have training, AEDs are user-friendly devices that even untrained bystanders can use.
- If it appears that a heart issue is involved, turn on the AED's power. The device will give you step-by-step instructions. You'll hear voice prompts and see prompts on a screen. It will analyze the heart rhythm, and will not apply a shock unless it is needed; it will **not** harm the person in any way, and may save their life.

The tennis club building has an alarm system and an associated control pad (see below). In the unlikely event that the alarm sounds, instructions next to the keypad inform you how to contact Fire, Ambulance, or Police services. See diagram below.

The alarm will sound if the club door is opened between 11:00 p.m. and 6:30 a.m. If the alarm is accidentally tripped, first silence the alarm, and then call the alarm company to inform them of the situation. The phone number is on the keypad.
